

Restorative Dentistry Solutions for Patients Missing Single and Multiple Teeth

In Association with Bergen Oral and Maxillofacial Surgery

Thursday, November 7, 2019

LEARNING OBJECTIVES

- Identify restorative components as related to implant dentistry
- Understand the treatment planning process for single-tooth and multiple-tooth restorations
- Understand features and benefits of the LOCATOR® Implant Attachment System for implant-supported dentures
- Place a solid or cementable abutment, and replicate impression procedures
- Select the appropriate abutment for esthetic restorations

PROGRAM DESCRIPTION

This program will provide an overview of the appropriate indications and prosthetic applications for dental implant treatment. A range of restorative options will be presented, from fully edentulous cases to single- or multiple-tooth implant cases. Topics that will be discussed include treatment planning for esthetic success and the restoration process with corresponding prosthetic component options.

Participants will learn how to place abutments and recognize the different techniques and components required for implant-level and abutment-level impressions. The program will demonstrate the advantages of tissue-level and bone-level restorative platforms for clinicians transitioning into implant dentistry. Participants of this program will understand how to assimilate restorations supported by dental implants into their practice with predictability and confidence.

Speaker	Dr. Steven Moss
Date	Thursday, November 7, 2019
Time	6:00 PM – 6:30 PM <i>Registration</i> 6:30 PM – 9:30 PM <i>Program</i>

SPEAKER

Dr. Steven M. Moss became a Diplomate of the American Board of Oral & Maxillofacial Surgery in 1997 and the National Dental Board of Anesthesiology in 2005. He received his dental degree from Tufts University and his Certificate in Oral and Maxillofacial Surgery from the University of Connecticut. In addition to private practice, Dr. Moss has maintained a faculty position at Hackensack University Medical Center and is the former Section Chief of OMFS at Pascack Valley Hospital. In 2008, he and his colleagues began collaborating with All-on-4™ innovator, Dr. Paulo Malo, and MALO CLINIC's research and educational teams. In 2010, they open MALO SMILES in Northern New Jersey, a clinical and educational facility with a focus on MALO CLINIC's time tested protocols. Since then, Dr. Moss has been a co-author on several articles regarding various "All-on-4™" studies. He lectures nationally on the topic, including the use of Zygomatic Implants when needed.

Registration Policy

- Registrations are taken on a first come, first serve basis
- Registrations are not considered final until payment is received
- Your registration will be confirmed by email within two weeks of receipt
- Partial payment cannot be accepted

Cancellation and Refund Policy
